DETAILED ACTION

Specification

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Objections

Claim-12 is objected to because of the following informalities:

The claim recites "the fold"; there is insufficient antecedent basis for the limitation in the claim since a fold was not positively recited for previously.

Appropriate correction is required.

Claim-14 is objected to for the recitation of the "product"; applicant is urged to consider changing the term to "flowers" or some equivalent with antecedent basis.

Appropriate correction is required.

Claim-15 is objected to for the recitation of "the generally conical device", said recitation lacks sufficient antecedent basis for the limitation.

Appropriate correction is required.

Art Unit: 3644

In **claim-16**, the recitation of "in order to the support base" is awkward.

Appropriate correction is required.

In **claim-17**; "and held by" should be changed to --and is held by--.

Appropriate correction is required.

Allowable Subject Matter

Claims 1-26 are in condition for allowance except for the presence of the claim objections outlined above, and a disclosure of prior art will be made along with a reasons for allowance upon receipt of an appropriate action correcting the minor informalities.

Conclusion

This application is in condition for allowance except for the following formal matters discussed above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
